Annual Meeting, 1914.

THE ANNUAL MEETING for 1913-14 was held in Trinity Hall on Saturday, October 31st, at 4.30 p.m. Sir Daniel Morris, K.C.M.G., J.P., President of the Society, being in the chair.

The Minutes of the previous Annual Meeting having been read and passed, the Hon. Secretary read the Council's Report, and the Hon. Treasurer read the Audited Annual Statement of Accounts, which showed a total expenditure of £265 2s., leaving a balance of £55 17s. 2d. This smaller balance as compared with the previous year was explained by the President as due to exceptional expenses incurred during the year for the furnishing and fitting up of the Society's New Room, show cases for Geological specimens, extra cost of Vol. V. of the Proceedings, and expenses in connection with the Handbook for the Congress. On the proposition of Mr. Claude Lyon, seconded by Mr. A. Gray, the Council's Report and the Balance Sheet were unanimously adopted.

An alteration in Rules 5, 6, and 27, rendered necessary by additions to the Officers and to the Members of the Council, proposed by the President, was unanimously carried.

Mr. George G. Hamilton then took the chair, and in a few complimentary remarks, proposed the re-election of Sir Daniel Morris as President for the year 1914-15. This was seconded by Dr. Moorhead and carried with acclamation.

Sir Daniel, in reply, said he deeply appreciated the honour conferred upon him, and he would devote himself as heretofore to secure the continued success of the Society.

The following Officers for the ensuing year were elected:—Hon. Treasurer, Mr. Geo. Brumell, A.R.I.B.A.; Joint Hon. Secretaries, Mr. R. A. de Paiva and Mr. Thos. Capper, M.A., B.Sc.; Assistant Secretary, Mr. J. F. Spencer; Hon. Librarian, Mr. Hy. J. Ellis; Hon. Editor, Mr. Hubert Painter, B.Sc., F.C.S.

The following four members were elected as additional Members of the Council:—Alderman Jas. Druitt, J.P., Mr. R. Y. Banks, Mr. Claude Lyon, Mr. R. O'B. Furlong, C.B., M.A.; and the retiring eight Members of Council were re-elected.

The President then referred to the valued services rendered to the Congress by Dr. S. McCalmont Hill, Mayor of Bournemouth, and by Mr. Geo. G. Hamilton, and proposed their election as Vice-Presidents. This was seconded by Mr. W. H. Scott and carried unanimously. Mr. Hamilton briefly responded.

The President announced that Mr. C. J. Hankinson, J.P. (Clive Holland), had promised to give a lecture on November 25th on "Belgium and the Belgians," the proceeds to be given to the

Belgian Relief Fund, and it was hoped that the Members of the Society would ensure that it was a success. The Education Committee had been good enough to grant the use of the Central Hall of the Municipal College for this patriotic purpose.

The Chairmen of Sections then read their Reports of the work done by their respective Sections.

Mr. E. Bicker and Mr. Hy. Backhouse having been elected Hon. Auditors, the meeting closed by a hearty vote of thanks to the President as Chairman.

Council's Report

for the Year ending September 30th, 1914.

In presenting the Eleventh Annual Report, the Council has the pleasure to record another year of continued prosperity. The number of Members on 30th September was 516 against 426 on the same date last year, being an increase of 90.

During the year general and other meetings were held as follows:—

The Annual Meeting.
The Presidential Address.
10 General Lectures.
34 Sectional Lectures.
9 Botanical Meetings for the Microscopical Study of Algæ.
3 General Excursions.
12 Sectional Excursions.

Making a total of 70 meetings as compared with 73 held in the previous year.

At the beginning of August Great Britain became involved in the European War, and in consequence, the General and Sectional Excursions for that month and September were abandoned.

The General Lectures were as follows:—

1913.

Nov. 8th.—The Presidential Address, by Sir Daniel Morris, K.C.M.G., etc.

Nov. 22nd.—"From Christiania to Bergen across Norway by the Valders route," by Mr. Geo. G. Hamilton, F.R.C.S., F.R.H.S.

Dec. 6th.—"The Scenery of North-West and Mid-Wales and the Wye Valley," by Mr. L. Richardson, F.R.S. (Edin.), F.L.S., F.G.S.

Dec. 20th.—"Some of the Architectural Wonders of Western India," by Mr. Claude Lyon.

1914.

Jan. 10th.—"Algiers and the Sahara," by Dr. C. E. Moss, D.Sc., F.L.S.

Jan. 24th.—"Fiji and the Fijians," by Sir Everard im Thurm, K.C.M.G., C.B., LL.D.

Feb. 7th.—"Samoa—the lovely Island home of Robt. Louis Stevenson and its interesting People," by Mr. James E. Liddiard, F.R.G.S., etc.

Feb. 21st.—"The Caves and Cave Dwellers of the Mendips," by Mr. H. E. Balch, F.S.A.

March 7th.—"Stonehenge and Kindred Stone Monuments," by Mr. Wm. Dale, F.S.A.

March 21st.—"Pre-historic Mammals," by Mr. H. Franklin Rawnsley, M.A., J.P.

April 25th.—"Silica, as applied to the Arts and Industries," by Mr. Hubert Painter, B.Sc., F.C.S.

All were illustrated by Lantern Slides.

Among the Sectional Lectures was a series treating of Silica from the Physical, Geological, Geographical and Botanical aspects,

followed by a General Lecture on its application to the Arts and Industries, and it has been proposed to adopt this plan in the coming Session in connection with some other kindred subject.

The General Excursions with their conductors in each case were as follows:—

May 27th.—The Mendips and Wells, by Mr. H. E. Balch, F.S.A.
June 17th.—Portsmouth Dockyard, by H.M. Officers.
July 29th.—Stonehenge, by Colonel E. E. Markwick, C.B., F.R.A.S., and Mr. Wm. Dale, F.S.A.

The Lectures given in the various Sections were as follows:—

July 21st.—Lady Baker's Pottery Works at Keysworth, by Mr. Hubert Painter, B.Sc., F.C.S. Physical.

The Council has approved of steps being taken to form an Entomological Section; this is likely to be warmly supported by the leading Entomologists in the district.

At the last Annual Meeting Sir Daniel Morris, K.C.M.G., J.P., M.A., etc., was unanimously elected President and delivered his inaugural address in the large Lecture Hall of the Municipal College on November 8th. Copies of the address have been printed and circulated.

It is a pleasure to add that he has kindly consented to be nominated as President for the coming year.

The Society has suffered the loss by death of Dr. Alfred Russel Wallace, O.M. The Council regrets to report the resignation of its Hon. Secretary, Mr. Theo. Michell, M.Inst.C.E. Mr. R. A. de Paiva, formerly Assistant Hon. Secretary, has been appointed Secretary. Owing to the resignation of Mr. Geo. Brownen, F.C.S., of the Chairmanship of the Archæological Section, Canon T. E. Usherwood, M.A., has kindly undertaken the office of Chairman of the Archæological and Historical Section.

The Society's Room at the Municipal College, Lansdowne, has afforded more convenient accommodation for the Library and for Meetings of Sections than those formerly occupied at Granville Chambers.

In June the South-Eastern Union of Scientific Societies held its nineteenth Congress at Bournemouth, from the 10th to the 13th of that month, the Natural Science Society assisting the Mayor and Corporation in making all the arrangements for the reception and entertainment of the Delegates. The Headquarters were in the Municipal College, Lansdowne, the use of the Corridors and numerous rooms having been granted by the Education Committee.

The opening address was given by Dr. P. Chalmers Mitchell, President of the Congress. On each morning Lectures were delivered by Members of the Congress, and in the evening of the 12th an important address was delivered by Sir Ronald Ross, K.C.B., F.R.S., on the subject of "Tropical Medicine." The afternoons were devoted to excursions, the principal ones being to Heron Court and Wimborne Minster, and to Christchurch Priory. A successful Garden Party was given by Mr. Walter Child Clark at Michelgrove House, Boscombe. The gardens and grounds of Mr. G. G. Hamilton, at Boscombe Place, were also open to the Members of the Congress. On the evening of the 11th a Reception and Conversazione were given by the Mayor in the Great Hall of the Municipal College, at which numerous exhibits of wide spread interest were shown; the number and importance of these exhibits were chiefly due to the exertions of Mr. Hamilton, F.R.C.S.,

F.R.H.S., who was assisted by many of the Members of the Society.

It is universally admitted that this Congress was one of the most successful ever held by the Union.

The Council has the pleasure to record that Sir Daniel Morris, President of this Society, was unanimously elected a Vice-President of the South-Eastern Union of Scientific Societies. In recognition of the influence and efforts of Dr. S. McCalmont Hill, Mayor of Bournemouth, in connection with the Congress, your Council recommend that he be elected a Vice-President of the Bournemouth Natural Science Society.

A full and interesting account of the Congress will be found in the Transactions of the South-Eastern Union of Scientific Societies for 1914.

An opportunity has occurred of acquiring an interesting collection of Birds' Nests and Eggs, made by the late Dr. Batley, of Christchurch; the collection has been valued and is in course of being arranged by Mr. W. Parkinson Curtis, F.E.S., and his brother, who consider it to be greatly to the advantage of the Society to purchase it. The Council desire to express their thanks for and appreciation of the kind services in this matter of the Messrs. Curtis.

The principal donations to the Geological Collection were:—

Kimmeridge Fossils, by Mr. R. V. Sherring, F.L.S.
A Rock Crystal from a Cave at St. David's Head, by Mr. Aubrey Edwards.
A fine specimen of Smoked Quartz Crystal from St. Gotthard, by Mr. Henry Backhouse, F.R.H.S.
Typical specimens of Flints and Coins, chiefly local, from Christchurch and Hengistbury Head, by Mr. Geo. Brownen, F.C.S.

And it might be added that Mr. J. H. Scott made the offer of his fine collection of Palæolithic and Neolithic worked flints when the Society is in a position to accept it. Mr. R. V. Sherring presented 50 specimen plants for the Herbarium.

The chief additions presented to the Society's Library were:—

"The Steam Turbine," by Mr. H. Le Jeune.
"Some Dorset Manor Houses," by Mr. W. Eggleston Blackett.
"Hampshire Records Old and New," by Mr. Wm. Dale, F.S.A.
Twelve Volumes of the Royal Geographical Society, by Mr. R. V. Sherring, F.L.S.
"The Southampton Atlas," by Miss Rogers-Barns.
"Wookey Hole: Its Caves and Cave Dwellers," by Mr. R. A. de Paiva.

A finely executed Genealogical Tree of the Animal Kingdom was presented by Mr. Geo. G. Hamilton, F.R.C.S., F.R.H.S.

In conclusion, the Council desires to record its appreciation of the kindness of Sir Edmund Antrobus, Bart., for permitting the Society to visit Stonehenge, and also to express its best thanks to the various donors of gifts to the Society, not enumerated, also to the Lecturers and Conductors of Excursions for their services, which have been much appreciated.

Report of General Summer Excursions, 1914.

The Mendips and Wells. The first General Excursion of the season took place on Wednesday, May 27th, when 40 Members went by train to Shepton Mallet, where they were met by Mr. H. E. Balch, F.S.A., who accompanied them on a very pleasant drive along the Mendips, showing them en route a large group of Round Barrows of the Stone Age, a very remarkable "Swallet," and the Millstone Grit Exposure at the head of Ebbor Gorge. Wells Cathedral was then visited under the guidance of the Chancellor, the Rev. T. Scott Holmes, M.A., and a short time was spent at the Bishop's Palace. The party then drove back to Shepton Mallet and returned home by rail.

Portsmouth Dockyard. On Wednesday, June 17th, an Excursion was made to Portsmouth Dockyard by Members of the Society in conjunction with the local branch of the Navy League, the s.s. "Monarch" being specially chartered for the occasion. The party was met by Lieutenant K. Gafton Salmond and other H.M. Officers, and conducted to various points of interest. A turn round the Harbour was then made in a s.s. lent by the authorities, to the "Victory," where numerous guides pointed out the many relics of the immortal Nelson. The party consisted of about 140, of whom 80 were Members of the Natural Science Society.

Stonehenge. On Wednesday, July 29th, a visit was paid to Stonehenge by 80 Members of the Society. Driving in motor-cars from the Square, they were met at Stonehenge by Colonel E. E. Markwick, C.B., F.R.A.S., who gave an address describing the monument from the Astronomical point of view, chiefly to explain Sir Norman Lockyer's theory as to the age of Stonehenge, by which he adjudged the date of its erection to be about B.C. 1700. Following Colonel Markwick, Mr. Wm. Dale, F.S.A., gave a short account of the great circle from its Archæological aspect. On the return journey a halt was made at Salisbury, several Members visiting the Cathedral and the Bishop's Palace.
